### Private accommodation brokering service

Studentenwerk Karlsruhe offers a free service matching students to private landlords offering accommodation in the Karlsruhe area. This is free of charge for both landlords and tenants. More information is available at

### Accommodation partnerships

The accommodation partnerships is a joint project from Paritätische Sozialdienste Karlsruhe and Studentenwerk Karlsruhe, with the aim of making sensible and cross-generational use of empty residential space in and around Karlsruhe. The principle is simple: 1 hour of support to be provided per month per 1 sq.m. of living space. This partnership model is designed to benefit both sides. The person offering living space receives practical support instead of monetary rent, and the students receive low-cost accommodation. This is therefore an alternative option to a shared house with other students or living in halls, offering new experiences and the chance to make social contacts with Karlsruhe residents.

### Facebook.com

If you would like to share accommodation with other Karlshochschule students or to learn from their experiences at our university, the Karlshochschule Facebook group (<http://www.facebook.com/karlshochschule>) is a great place to gain a first impression. Here you can get to know other students, find out about the current accommodation situation, and perhaps even receive an interesting offer of living space. Some students post their accommodation offers directly in the forum within the Facebook group. And occasionally a group come together here and set up a new shared student flat or house. So clicking on this link might well pay dividends!
