| French 3 .....                             | 141 |
| Italian 3.....                             | 145 |
| Russian 3 .....                            | 148 |
| Spanish 3 .....                            | 150 |
| Internship .....                           | 155 |
| Bachelor Thesis including its Defense..... | 158 |
| Appendix .....                             | 160 |

## **Objectives**

The educational objective of the study program "Sustainability Management and Social Responsibility" is the acquisition of the competence to penetrate, analyze, evaluate and interpret (from a perspective committed to sustainability imperatives) issues related to corporate sustainability (e.g. in business model development, in the design of supply and value chains, in the financial market as well as in consumer exchanges) on the basis of a broad and critical interdisciplinary knowledge and understanding with the help of scientific theories, principles and methods and, based on this, to, among others in national and international institutions, non-profit and for-profit organizations and in independent consulting, to act competently, economically appropriately and effectively as well as sustainably and ethically reflected, to develop resources for action, to shape relationships, to develop and reflect on strategies in various organizational fields, to exercise management and control functions, to develop change potentials and to initiate, moderate, accompany and critically reflect on changes, to perform leadership tasks and to take on actively shaping roles and responsibilities in teams.

This competence is supplemented by the intercultural competence and language competence in two foreign languages required in global contexts and the ability to put this into practice, which is practiced in practical projects and the internship.

An integral part of the objective is a distinctive personality development oriented towards ethical-normative questions and social implications and consequences of one's own actions.

In this way, the program makes a significant contribution to the implementation of Karlsruhochschule's mission statement of individual, organizational and societal transformation.

The study program makes a contribution to society by discussing which business models are still sustainable at all in the Anthropocene and which alternative economic models are necessary to make companies socially just and ecologically justifiable. At the same time, the aim is to evaluate on a societal level the extent to which climate, biodiversity and other sustainability crises can be addressed with the help of business innovations and to present strategies on how companies can implement the SDGs and create sustainable value.

## Curriculum Overview

| Module Code | Title                                                         | M/<br>CE* | Semester |   |   |   |   |   | Total |     |       |      | Assessment type        | Weight |
|-------------|---------------------------------------------------------------|-----------|----------|---|---|---|---|---|-------|-----|-------|------|------------------------|--------|

| Frequency of module                                                 | Once a year                                                                                                                                                                                                                                                                                                                             |
| Entry requirements                                                  | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs                       | This module is part of the management cycle (plan) and has particular references to IMAN (analyze), RESO (do), CARE (check), CHLE (act) and MELE (elective). It is part of all management programs at Karlshochschule.                                                                                                                  |

| Specials (e.g. online part, practice visits, guest lectures, etc.) | The event will be held as a block event. A pre-reading of the given literature is obligatory - this is provided via moodle. In a kickoff session about three weeks before the block event the specialties are presented.                                                                                                                                                                                                                                                                                                                                       |

| Entry requirements                                                   | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs                        | As a practice-oriented module, it has interconnections to all other modules, in particular does it prepare the students for other modules of the practice cycle (IPRO, EPRO/APRO, INTS). The module is applicable to all bachelor programs.                                                                                             |

| Frequency of module                                                  | Once a year                                                                                                                                                                                                                                                                                                                             |
| Entry requirements                                                   | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs                        | This module is part of the intercultural cycle and has particular references to the language courses and the semester abroad. It is applicable to all bachelor programs at the university.                                                                                                                                              |

| Entry requirements                                                   | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs                        | This module is part of the management cycle (do) and has particular references to IMAN (analyze), OENV (analyze), STTP (plan), RESO (do), CARE (check), CHLE (act) and MELE (elective). It is part of all management programs at Karlshochschule.                                                                                       |

| Course type<br>(Mandatory, elective, etc.)    | Mandatory                                                                                                                                                                                                                                                                                                                               |
| If relevant, course units within the module   |                                                                                                                                                                                                                                                                                                                                         |
| Frequency of module                           | Once a year                                                                                                                                                                                                                                                                                                                             |
| Entry requirements                            | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs | This module is part of all bachelor programs in management at Karlshochschule International University and is linked to the other modules of the practice cycle (C PRO, E PRO, INTS). The subject of the project may vary according to the program.                                                                                     |
| Person responsible for the module             | Prof. Dr. Dr. Björn Bohnenkamp                                                                                                                                                                                                                                                                                                          |

| Special features (e.g. online activities, event/company visits, guest speakers, etc.) | <p>In teams of 5-6 participants, the students find a project (from a pool of external projects), plan it autonomously and implement it, starting with the generation of an idea and concluding with a presentation of the results. In this process, they learn creative techniques and project management methods and develop communication and team-working skills.</p>                                                                                                                                                                                                                                                                                                                                                                                               |

| Special features (e.g. online activities, event/company visits, guest speakers, etc.) | <p>In teams of 5-6 participants, the students find a project (from a pool of external projects), plan it autonomously and implement it, starting with the generation of an idea and concluding with a presentation of the results. In this process, they learn creative techniques and project management methods and develop communication and team-working skills.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Literature<br>(Required reading/supplementary recommended reading)                    | <p>The selection of literature is carried out by the students with the guidance of their tutors. The following is a list of optional general background reading:</p> <p><b>Armstrong, Michael</b> (2012): Armstrong's handbook of management and leadership: developing effective people skills for better leadership and management. 3. ed., London: Kogan Page.</p> <p><b>Bentley, Colin</b> (2009): Prince 2: a practical handbook. 3. ed., Oxford (u.a.): Butterworth-Heinemann.</p> <p><u>Further reading:</u></p> <p><b>Hölzle, Philipp</b> (2007): Projektmanagement: professionell führen, Erfolge präsentieren. 2. ed., Freiburg: Haufe.</p> <p><b>Sutherland, Jeffrey Victor (2014):</b> Scrum. A revolutionary approach to building teams, beating deadlines, and boosting productivity. Random House Business</p> |

| Frequency of module                                                   | Once a year                                                                                                                                                                                                                                                                                                                             |
| Entry requirements                                                    | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs, links to other modules | This module is part of the management cycle (check) and has particular references to IMAN (analyze), OENV (analyze), STTP (plan), RESO (do), CHLE (act) and MELE (elective). It is part of all management programs at Karlshochschule.                                                                                                  |

| Course type<br>(Mandatory, elective, etc.)                           | Mandatory                                                                                                                                                                                                                                                                                                                               |
| If relevant, course units within the module                          |                                                                                                                                                                                                                                                                                                                                         |
| Frequency of module                                                  | Once a year                                                                                                                                                                                                                                                                                                                             |
| Entry requirements                                                   | There are no formal requirements for participation in this module. However, successful completion of the preceding modules according to the curriculum overview is recommended. For preparation, please refer to the required and recommended literature in this module description and to the university's internal learning platform. |
| Applicability of the module to other programs                        | This module is part of the management cycle (act) and has particular references to IMAN (analyze), OENV (analyze), STTP (plan), RESO (do), CARE (check) and MELE (elective). It is part of all management programs at Karlshochschule.                                                                                                  |
| Person responsible for the module                                    | Prof. Dr. Dr. Björn Bohnenkamp                                                                                                                                                                                                                                                                                                          |
| Name(s) of the instructor(s)                                         | Marisol Bock                                                                                                                                                                                                                                                                                                                            |

| Semester or trimester                                                | 6th semester                                                                                                                                                                                                            |
| Duration of module                                                   | Single semester                                                                                                                                                                                                         |
| Course type<br>(Mandatory, elective, etc.)                           | Mandatory                                                                                                                                                                                                               |
| If relevant, course units within the module                          |                                                                                                                                                                                                                         |
| Frequency of module                                                  | Once a year                                                                                                                                                                                                             |
| Entry requirements                                                   | The students must have acquired 150 ECTS credits. For preparation, please refer to the required and recommended literature in all prior modules, especially in SCIE and to the university's internal learning platform. |
| Applicability of the module                                          | This module is applicable to all the Bachelor programs at Karlshochschule International University. It has connections to all earlier modules, especially to SCIE.                                                      |
| Person responsible for the module                                    | Prof. Dr. Dr. Björn Bohnenkamp                                                                                                                                                                                          |
| Name(s) of the instructor(s)                                         | Supervisor in accordance with § 15 parag. 4 of the study and examination regulations                                                                                                                                    |
| Teaching language                                                    | English                                                                                                                                                                                                                 |
| Number of ECTS credits                                               | 12 (11 + 1)                                                                                                                                                                                                             |
| Total workload and its breakdown (e.g. self-study and contact hours) | Total workload = 360 hours<br>(thesis: 2 months plus preparation of the thesis defence)                                                                                                                                 |
| Hours per week                                                       |                                                                                                                                                                                                                         |

|                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|---------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessment type / requirement for the award of credits                                | The assessment type of the module is a Bachelor Thesis (weighting: 80 %) and Defence of the Bachelor Thesis (weighting: 20 %) according to §§ 15 & 16 Course and Examination Regulation (CER); see appendix                                                                                                                                                                                                                                           |
| Grading & weighting of the grade within the total grade                               | 16 %<br>Grading according to §§ 19 & 20 Course and Examination Regulation (CER); see appendix.                                                                                                                                                                                                                                                                                                                                                        |
| Qualification objectives of the module                                                | In accordance with § 15 parag. 1 and § 16 parag. 1 of the study and examination regulations students who have successfully participated in this module will be able to: <ul style="list-style-type: none"> <li>• investigate and answer an academic question independently using academic methods within a given time period</li> <li>• summarise the results of their work and defend it with informed academic arguments in a discussion</li> </ul> |
| Content of the module                                                                 | Bachelor Thesis and defence of the Bachelor Thesis in accordance with §§ 15 and 16 of the study and examination regulations.                                                                                                                                                                                                                                                                                                                          |
| Teaching and learning methods of the module                                           | Self-directed learning, support, if needed by the professor in charge, oral presentation without slides summarising the results of their work (max. 10 mins) and defend it with informed academic arguments in a discussion (max. 20 mins)                                                                                                                                                                                                            |
| Special features (e.g. online activities, event/company visits, guest speakers, etc.) |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Literature<br>(Required reading/supplementary recommended reading)                    | No special requirements, appropriate use of literature given in prior modules and relevant for chosen topic.                                                                                                                                                                                                                                                                                                                                          |

## **Appendix**

Excerpt from the Study and Examination Regulations

### **§ 14 Forms of examinations**

- (1) Possible forms of examinations during the course of study are - without prejudice to different weighting - written examinations, tests, written assignment, seminar papers, essays, learner's portfolios, oral examinations, presentations, internship analysis, project work and case studies.
- (2) Written examinations are supervised written work. The duration of the examinations shall be at least 60 and at most 240 minutes in accordance with the respective module description. In written examinations, students shall demonstrate in a limited time and with limited aids that they have achieved the qualification objectives documented in the module descriptions.
- (3) Tests are written or oral quizzes. Their duration is 15, 30 or 45 minutes according to the respective module description. In tests, students should in particular prove that they are able to correctly reproduce, differentiate and apply what they have learned.
- (4) A written assignment is an independent written elaboration in which a scientific question is dealt with. The length of the student research project should be between 30,000 and 40,000 characters including spaces (+/- 15%). In seminar papers, students should prove that they can scientifically work on a problem corresponding to the qualification goals of the respective module.
- (5) A seminar paper consists of an independent, in-depth written examination of a topic from the work context of the module, taking into account the relevant scientific literature, as well as a presentation and a discussion of the paper and its results. The written paper should comprise between 16,000 and 24,000 characters including spaces (+/- 15%); the oral presentation and the discussion together should not exceed 20 minutes. In the presentation, the students prove that they are able to deal with a specific subfield in depth, to structure the chosen

topic, to process the state of the literature and to present the findings and results in an oral presentation.

- (6) An essay is a critical examination of a scientific position. The essay should contain between 10,000 and 20,000 characters including spaces (+/- 15%). With essays, students show that they are able to present scientific positions, weigh them up against each other argumentatively, question them critically, take a stand independently and make connections.
- (7) A learner's portfolio is a written presentation of the student's own work, selected by the student according to previously defined criteria, with which he or she demonstrates his or her learning progress and level of achievement at a certain point in time and in relation to a defined content. The selection of the work, its relation to the student's own learning progress and its significance for the achievement of the qualification objectives must be justified. In the learning portfolio, students should prove that they have taken responsibility for their learning process and have achieved the qualification objectives documented in the module description. Depending on the module description, the components of successful self-learning checks of the learning portfolio can be, in particular, works with application relevance, websites, weblogs, bibliographies, analyses, thesis papers as well as graphical preparations of an issue or a question. The learning portfolio usually comprises 40,000 to 60,000 characters including spaces (+/- 15%).
- (8) An oral examination is a time-limited examination discussion on specific topics and concrete questions to be answered. In oral examinations, students should prove that they have achieved the qualification objectives documented in the module descriptions, recognise the interrelationships of the examination area and are able to classify specific questions in these interrelationships. The duration of the examination shall be at least 10 and at most 20 minutes. The essential subjects and the result of the examination shall be recorded in a protocol. The result shall be communicated immediately.
- (9) A presentation is a systematic, structured oral presentation visually supported by suitable media (such as beamers, slides, posters, videos), in which specific

topics or results are illustrated and summarised and complex issues are reduced to their essential core.

- (10) The internship analysis is an analysis of the internship position with the help of the qualifications acquired during the studies. The subject of the analysis is the strategy, the business model or the organisational purpose, the value chain or the political processes or an equivalent field of investigation of the internship position and a classification/reflection of one's own experience in the internship. The internship analysis consists of a systematic, structured oral presentation visually supported by appropriate media, followed by a discussion and a written management summary. The written presentation should be between 6,000 and 10,000 characters including spaces (+/- 15%); the oral presentation and the discussion together should not exceed 20 minutes. In the internship analysis, students should show that they are able to transfer the theoretical knowledge acquired in their degree programme to practical problems and to scientifically scrutinise their practical experience, as well as the processes and structures of the practical workplace.

If a 6-month compulsory internship is planned in the degree programme, the management summary in the appendix must be supplemented by a topic-specific analysis with a length of between 5,000 and 8,000 characters including punctuation marks (+/- 15%). Details are specified in the module description.

- (11) The course-related project work is a group work with which a defined goal is to be achieved in an interdisciplinary manner in several phases (initiation, problem definition, role allocation, idea generation, criteria development, decision, implementation, presentation, written evaluation) in a defined time. In the project work, the students should prove that they are able to solve complex tasks from their professional field in a team. The contribution to be assessed as examination performance in each case must be clearly individually recognisable and assessable. This also applies to the individual contribution to the group result. Project work includes a presentation of the results. The essential objects and results of the project work as well as the reasons for the assessment shall be recorded in a protocol. The result shall be communicated immediately.

- (12) A case study is a written treatment of a case study. The duration of the processing shall be at least 36 and at most 60 hours in accordance with the respective module description. In case studies, students shall prove that they are able to master an entrepreneurial design task in a limited period of time with the help of their analytical knowledge and methodological competences corresponding to the qualification objectives.
- (13) Other forms of course-related examinations are permissible with the consent of the examination board. They must be announced to the university public before the beginning of the semester, stating the assessment criteria and processing time.
- (14) The assessment procedure for written examinations shall not exceed four weeks.

### **§ 18a Award of ECTS credits**

- (1) ECTS credit points are granted for a module if the in the module description intended performance in connection with these examination regulations is proven.
- (2) The award of ECTS credit points does not necessarily require an examination, but the successful completion of the respective module.

### **§ 19 Assessment of examination results, module grades, overall grade**

A Assessment of the examination performance

- (1) The grades for the individual examination performances to be graded are determined by the respective examiners. The following grade levels are to be used:
  - 1 = very good (excellent performance)
  - 2 = good (performance significantly above average)
  - 3 = satisfactory (performance that meets average requirements)  
meets)
  - 4 = sufficient (performance which, despite its deficiencies, still  
meets the requirements)
  - 5 = insufficient (performance that no longer meets the requirements  
due to significant deficiencies)

For the differentiated evaluation of the graded examination performances, intermediate values with one decimal place are permissible.

- (2) A graded module is successfully completed if the module examination has been assessed with at least "sufficient" (4.0), an ungraded module is successfully completed if the module examination has been assessed with "passed" or if the performances provided for in the module description have been proven.
- (3) If an ungraded examination performance is assessed by several examiners, it is deemed to have been completed if it has been assessed as "passed" by each examiner. If a graded examination is assessed by several examiners, it is deemed to have been passed if it has been assessed with at least "sufficient" (4.0) by each examiner.
- (4) If a graded examination performance is assessed by several examiners with at least the grade "sufficient" (4.0), the grade of the examination performance

is calculated from the arithmetic mean of the grades awarded by the examiners in accordance with paragraph 1.

#### B Module grades

- (5) The module grade is calculated from the weighted average of the grades of all associated graded examinations. The weighting is regulated in the module description. This also applies to the Bachelor's thesis and its defence. Paragraph 1, sentences 2 and 3 apply accordingly.

#### C Overall grade

- (6) The Bachelor's examination is passed if the module examinations of all modules specified in the respective curriculum overviews in the special section and the Bachelor's thesis including its defence have been passed. Certificates of achievement in additional voluntary modules are not taken into account.
- (7) The overall grade is calculated from the weighted average of the module grades and the grade for the Bachelor's thesis including its defense. Paragraph 1, sentences 2 and 3 apply accordingly. The individual module grades and the Bachelor's thesis including its defence are weighted as follows within the framework of the overall Bachelor's grade:
- Each module grade is included in the overall grade with the percentage corresponding to the number of ECTS points assigned to the module multiplied by 0.5.
  - The Bachelor's thesis, including its defence, is included in the overall grade with a percentage of 16 %.
  - Insofar as study and examination achievements are credited in accordance with § 5 Para. 4 Sentence 2, but are not included in the calculation of the overall grade due to the lack of identity of the grading systems, or insofar as modules are only assessed as "passed" / "failed", the weighting of the remaining module grades in each case results from the multiplication of the ECTS points assigned to the module by 90 % divided by the total number of ECTS points included in the calculation:

- The correspondingly calculated weight of the Bachelor's thesis including its defence is increased by 10 %:

$$\frac{12 \times 90 \%}{\text{Gesamtzahl der in die Berechnung eingehenden ECTS Punkte}} + 10 \%$$

(8) The overall grade is:

- With an average up to and including 1.5  
= very good;
  - with an average of 1,6 up to and including 2,5  
= good;
  - with an average of 2.6 up to and including 3.5  
= satisfactory;
  - with an average of 3.6 up to and including 4.0  
= sufficient;
- if such an average is not reached = not sufficient.

(9) In the case of outstanding performance (overall grade of at least 1.3), the overall grade "passed with distinction" is awarded.

## **§ 20 Bachelor's Certificate, Bachelor's Degree, Certificate, Diploma Supplement**

- (1) A certificate is issued for the passed Bachelor examination. The module grades and the ECTS credits allocated to the modules, the topic of the Bachelor thesis and the overall grade are to be included in the certificate.
- (2) In addition, a relative ECTS overall grade will be included in the transcript. Thereafter, the successful students will receive the grade
  - A the best 10 %
  - B the next 25
  - C the next 30
  - D the next 25
  - E the next 10%.

The reference group for the calculation of relative grades is all students of the current and the two preceding cohorts of the degree program. If a degree program has not yet completed the years required according to sentence 3, the graduates of the current and the two preceding year cohorts of all Bachelor's degree programs at Karlshochschule International University are

used as the reference group.

- (3) The certificate shall bear the date of the last examination. It shall be signed by the President and by a member of the Examining Board. On request, an English translation of the certificate will be provided.
- (4) Karlshochschule International University Karlsruhe awards the degree "Bachelor of Arts (B.A.)" after passing the Bachelor's examination.
- (5) At the same time as the certificate, the certificate of the Bachelor's degree with the date of the certificate is handed out. This certifies the award of the Bachelor's degree. The certificate is signed by the President and bears the seal of Karlshochschule International University Karlsruhe.
- (6) In addition, the graduate is issued with a "Diploma Supplement" in English, which contains information on the course content, the course of study and the academic and professional qualifications acquired with the degree, as well as the overall grade according to Paragraph 1 and the relative ECTS overall grade according to Paragraph 2. Certificates of achievement from additional modules are shown separately.
- (7) The "Diploma Supplement" bears the date of the certificate and is signed by a member of the examination board.
