1. Search the library catalogue via the **Library Homepage** - choose the **Link “Library Catalogue”** top left:

The university is a library.

**Library**

Imagine a library with no walls, and where the whole University is reservoir of knowledge. I imagine Karlshochschule is exactly like this. The centrally located library forms the heart of the University, and spaces for reading and studying can be found throughout the entire campus, and are available to all students and visitors.

This means you're always surrounded by knowledge, and everywhere on the campus there are places where you can simply read, or dream about foreign cultures, or think about new ideas.
