### **StudyCheck Award 2020: Karlshochschule in 10th place among the most popular Universities in Germany.**

**5th place among the universities in Baden-Württemberg and 1st place in Karlsruhe. 96 percent of students and graduates recommend the "Karls" to others.**

Karlsruhe, March 3, 2020 – The Karlshochschule is one of the ten most popular universities in Germany. This is shown by the current ranking on Germany's most influential course evaluation platform "StudyCheck", which was published today. Students and graduates rate the "Karls" with 4.2 of 5 possible stars, 96 percent recommend our university to others.

#### **Number 5 in the State**

We are particularly proud of the fact that only fifteen years after our recognition as a state university in 2005, we have made it to number 5 in the state. Prof. Dr. Michael Zerr, President of the "Karls", sees the award as confirmation of the university's concept by those who are most concerned: "Our claim "Let's make a difference" appeals to a young generation facing high transformation requirements in society and the working world. More and more prospective students are willing to take on responsibility and see leadership as a service to their fellow human beings and society. For this task the "Karls" conveys well-founded specialist knowledge and a good academic education which also allows a look "behind the scenes" of the seemingly obvious. Committed people are encouraged and enabled to cross internal and external boundaries in a world of values. In the sense of lifelong learning young people engage with new and foreign things, thus acquiring the ability to develop their personality independently.

#### **Quality of teaching is a prerequisite for success**

Our claim to make a difference applies in this context above all to the quality of teaching. We are all the more pleased that this is reflected in the evaluations. "Our thanks go not only to the students and graduates for the excellent feedback, but also to our teachers and staff who make this result possible", says Prof. Dr. Michael Zerr.
